Subject: 2008 Project Began,

Dear Mr. Rob,

I am very happy to send you this mail and I hope you are doing well with your family. I am happy to tell you that the project began.

On behalf of the community, the money would be used for a new three class unit block in addition to the old one that is under renovation. The community takes the task as their contribution towards your funds to renovate the old building while the money would be used to build additional three class rooms for the children.

We think that if even this money did not complete it the next fund raising will make it up. I also agree to that fact that the community can also have something to do. We started to lay blocks for the building to start and the community is also doing its best to start the renovation.

So far this is what we are planning for and I know it is good and for the development of the village. All necessary reports and pictures would be taken and sent to you as usual.

In case of anything let me know/ any suggestion as soon as possible. My best regards to your wife.

With love

Abusco
